NOTE: Public hearings are not held during Town Council Work Sessions. The public is invited to attend the Work Session and listen to the Council's discussion. However, the Council is not required to take public comments during Work Sessions. At the discretion of the Council, public comment may be allowed if time permits and, if allowed, public comment may be limited. The Town Council may make a Final Decision on any item listed on the agenda, regardless of whether it is listed as an action item. The public will be excluded from any portion of the Work Session during which an Executive Session is held.

Report of Town Manager; Report of Mayor and Council members; Scheduled Meetings and Other Matters are topics listed on the 7:30 pm Town Council Agenda. If time permits at the afternoon work session, the Mayor and Council may discuss these items.

MEMORANDUM

To: Town Council

From: Peter Grosshuesch

Date: March 4, 2009

Re: Town Council Consent Calendar from the Planning Commission Decisions of the March 3, 2009,

meeting.

DECISIONS FROM THE PLANNING COMMISSION AGENDA OF March 3, 2009

CLASS C APPLICATIONS:

1. Greenawalt Residence, PC#2009002; 299 Peerless

Construct a new single family residence with 5 bedrooms, 6 bathrooms, 5,455 sq. ft. of density and 6,041 sq. ft. of mass for a F.A.R. of 1:3.31. Approved.

PLANNING COMMISSION MEETING

THE MEETING WAS CALLED TO ORDER AT 7:00 P.M.

ROLL CALL

Dan Schroder Rodney Allen Michael Bertaux Jim Lamb JB Katz Leigh Girvin

Dave Pringle

Mr. Mamula arrived at 7:10 pm for the worksessions.

APPROVAL OF MINUTES

With one change to the minutes, the minutes of the February 3, 2009, Planning Commission meeting were approved unanimously. Ms. Girvin had a clarification regarding her quote about motorized / recreational vehicles on page 4.

With one change to the minutes, the minutes of the February 17, 2009, Planning Commission meeting were approved unanimously. Mr. Allen's comments on the Cohn dormer Addition, on page 11, changed to: "see if there is some way to make up with positive points", rather than "not to get negative points".

Both minutes were approved with the noted changes.

APPROVAL OF AGENDA

With no changes, the March 3, 2009, Planning Commission agenda was approved unanimously (7-0).

The memo regarding solar panels was mistakenly left out of the packet, so Ms. Puester handed out copies at the start of the meeting.

CONSENT CALENDAR:

1. Greenawalt Residence (CK) PC#2009002; 299 Peerless Drive

Mr. Pringle: Are we allowed to approve this with the variance to the access easement? (Mr. Neubecker: It has

been approved by the town engineer and town attorney. It is a condition of the approval that the

easement be modified.)

With no motions for call up, the consent calendar was approved as presented.

WORKSESSIONS:

1. Defensible Space and Mountain Pine Beetle Ordinance (JC)

Ms. Cram presented an update on the Defensible Space and Mountain Pine Beetle ordinances.

Proposed Defensible Space Program

Staff is currently working with the Red, White and Blue Fire District (RWB) to develop a program for creating Defensible Space around structures in Breckenridge. As part of this, staff has been working on a draft ordinance.

The Defensible Space Ordinance, if adopted, would be administered by the RWB. All properties would be affected by the Ordinance; however, many properties may not have to remove any trees or vegetation, as they already meet the intent of the Ordinance.

The proposed Ordinance identified three Zones where treatment would be required. It would not be the intent of the Ordinance to require clear cutting in any Zone. Zone One extends 30 feet from the eave of a structure. Thirty feet allows flexibility to preserve approved landscaping that would be drip irrigated, native specimen trees and other vegetation that would provide buffers while still reducing fuels and creating an area where fire suppression crews can defend the structure. Zone Two would extend 75 to 125 feet from the eave of the structure beyond Zone One depending on slope. Within Zone Two, dead and diseased trees would be proposed to be removed and trees thinned to open up crown spacing. Trees in Zone Two could be preserved in clumps to help prevent wind throw and to preserve buffers between properties. Zone Three would extend beyond Zone Two to the property boundary. Within

Zone Three all dead and diseased trees would be removed. In all three Zones, all downed dead trees would be removed, dead braches are limbed up, and leaf clutter and other debris would be removed to reduce ground fuels.

Forest Management Plans

In addition to developing a Defensible Space Program, staff has been working with RWB and a consultant to create a plan for Fuel Breaks around Town. As the Commission already knows, one fuel break was already created in the Discovery Hill neighborhood this fall/winter. The proposed Fuel Break plan would be consistent with what the County, State and US Forest Service are planning for fuels reduction and forest health prescriptions for the Upper Blue Valley. The Open Space Division has also outlined twelve projects for treatment in 2009. Staff shared some preliminary maps with the Commission.

Changes to the MPB Ordinance

Proposed changes to the Mountain Pine Beetle (MPB) Ordinance help to simplify the inspection and inspection warrant processes. Changes also help to make the MPB Ordinance consistent with the Defensible Space Ordinance and allow property owners to coordinate the removal of dead and infested trees with a Defensible Space Plan to receive an economy of scale. If adopted, property owners would have one year to remove infested trees. Changes proposed included an exemption for those properties that have dead and infested trees that are inaccessible due to steep slopes. The updated ordinance also would clarify how Town owned property would be treated, with Open Space being treated according to the Forest Management plan.

Staff handed out several documents regarding the proposed Defensible Space Ordinance and updates to the MPB Ordinance.

Commissioner Questions/Comments:

Mr. Pringle:

When properly explained it seems like a natural thing to do and a thing we should have been doing for a long time. Why the bad press? (Ms. Cram: It's likely a combination of sensational headlines and people passing on bad information. The ordinance will help to preserve the town's buffers and goals. Several public forums are scheduled in March and the town's website is being updated to inform residents.) Why does it cost so much to remove a tree? Is there a way that we can have a prescribed burn or have people allowed to bring their trees/slash to an area on Block 11 this spring when the conditions are correct and not have to have a tree removal company come in and charge so much to remove the trees? Cheaper for homeowners to do a Saturday workday. Have a big bonfire. Ullr fest. (Ms. Cram: Got a bid this week for \$37/tree from a contractor. People have many trees on their lots and are removing year by year, which costs more money. We will give them a few years to remove all of the dead trees.) The property up on Moonstone where we did the forest management plan, do we have documentation on what we did, before/after photos, etc. to create a learning center from what we did before? (Ms. Cram: I think it is doing well and I will get in touch with open space to check in.)

Mr. Lamb:

The Summit Daily left out the fact that the County has been requiring MPB Ordinance for many years and you cannot get a CO on a project until it is met. (Mr. Mamula: County only enforces MPB on new construction. It is not retroactive, as the proposed ordinance is. A year ago we asked people to save trees, and now we are asking them to cut them down with the defensible space ordinance.)

Mr. Allen:

How does defensible space apply to trees within the zones that are off the property? (Ms. Cram: Defensible space ends at your property line. Vacant lots are addressed in MPB – still required to remove trees.) What if there are variable setbacks between homes? (Ms. Cram: Defensible space is space around your structure, defensible space around structures. Required to treat to your property line.) Who is the director referenced in the ordinance? The ordinance refers to the Director being able to go into the home? (Ms. Cram: Peter Grossheuch is the Director. There is no reference that the director can go into a residence.) If persons do not follow the ordinance the town can put a lien on the property? (Ms. Cram: Yes.) How will the town continue to follow the open space MPB ordinance? The heat I'm getting from people is the time frame that people have to get rid of the trees versus how much time the town has to remove. (Ms. Cram: Town will continue to create defensible space as needed as they have in the past. Chipping will take place again with MPB. It is a result of contractors not having a place to take the whole logs. Most of them don't have the equipment to handle it. The town will have a chip pile again this year. Town is looking to work with Combine energy in Kremmling.)

Date 03/03/2009 Page 3

Ms. Katz: Case-by-case basis raises a red flag and will there be an appeal process? (Ms. Cram: RWB fire

district and planning department will work with an appeal process to ensure fairness and preservation of the town's goals and RWB goals of safety.) Special / change of course policy and it would be unusual for the town to give up the authority to have the last say, since it is our town and not RWB.

Ms. Girvin: Is it being considered in the ordinance to make sure that the town has the real final say not RWB?

(Mr. Mamula: It didn't come up yet but there is some language that Council will be talking about but

there wasn't time at the first round of hearings.)

Mr. Schroder: Can people cut down trees that aren't theirs? (Ms. Cram: You can't cut down trees that aren't on

your property.)

Mr. Mamula: There is an economic impact to this ordinance. People have a different reality today than they did

when they lost their money in the stock market. Cutting down trees is an issue to people because they have invested time and money in their trees. In the end people will not want to spend that kind of money on the defensible space. The council will have to work its way through whether or not it is

time to impose a bureaucracy on the public during this economic time.

Mr. Allen opened the hearing to public comment.

Jon Gunson, Architect: Overlay at steep areas will be exempted? Aren't those the ones where fire will spread fastest? (Ms. Cram: critical zones are 1 and 2. Partnering with Forest Service and fuel breaks will address some of those issues.)

Jim Brook, Highlands 1-5: We had RWB come to our meeting about a month ago and were satisfied. Probably the one remaining issue that everyone had is that although they adopted the idea of being a good neighbor and defensible space, they were told that the vacant lots would not be subject to the ordinance. It only creates defensible space on one direction on your lot. You are still exposed to what you are trying to get rid of. Doesn't seem right. Want ordinance to be fair. (Ms. Cram: Vacant lots are subject to MPB. You can't require someone to create defensible space without a structure. Not sure which ones can be used as a buffer. By creating defensible space around your home. We'll talk about it further.)

There was no more public comment and the hearing was closed.

2. Free Basement Density Under Commercial Buildings (MM)

Mr. Mosher presented. As an incentive to encourage the installation of foundations under historic structures, the Town developed a policy to waive the density in the basement of such buildings. The current policy waives the basement density under a historic residential structure. It also allows for storage under historic commercial buildings, but does not allow the basement density to be used for leasable space. The intent of this discussion would be to consider changing the policy to allow leasable space in the basement of historic commercial buildings as an additional incentive for restoration/preservation.

During the last review of this subject on February 3rd, Staff was directed by the Planning Commission to explore some of the properties on Main Street that might be able to add basements beneath the historic portions of the buildings. Staff presented a summary of a rough estimate for those properties. The numbers were based off Summit County records and Staff's best estimate of the main level square footage of the historic portions of the developments on the property.

One concern raised at the February 3rd worksession was the impact of added parking to the Service Area and resulting impacts to the core downtown parking. Staff presented parking occupancy percentages. With the goal of encouraging restoration or rehabilitation of historic structures, it might be possible to allow historic buildings with a retail/commercial use to add "free" basement area with uses other than storage. Allowing basement density without use restrictions might be a greater incentive for properties to be locally landmarked, restored and placed on new foundations.

If the Commission believed that the intensity of use for the added density should be restricted in any manner, a covenant, running with the land, might be recorded with the property. Staff welcomed comments and direction from the Commission.

Commissioner Questions/Comments:

Mr. Bertaux: How did you calculate Skinny Winter? (Mr. Mosher: Went through county web data, it is a rough number. It would have taken many hours to go through each property file to access exact data. As applicants come in to add any density we would look at each property and the actual proposal of basement density.) Benefit is people aren't requesting above ground density. Why don't we just take the density off the Town's many parking lots? (Mr. Grosshuesch: Council is looking at this density for affordable housing too.)

Mr. Pringle:

If we keep providing more parking people will park there. Is this the result we want? What is the real incentive for the historic buildings to do restoration? My thought was that giving them free unrestricted space we need to make sure we catch the other impacts along the way. By limiting the use to "activities that support the use above" is a little vague. (Mr. Neubecker: Potentially get more historic buildings restored with this ordinance.) The original ordinance (for storage only) was triggered when Tillie's was built because although they weren't a historic structure and they wanted free basement density. This is when the town became objectionable to this issue. We'll likely have this question again when new construction comes in as well in the historic district. (Mr. Mamula: There is an incentive for the town with the historic buildings. There is no incentive for the town with new construction.) (Ms. Girvin: New construction can create basement density, it just isn't free.) Is it possible to add above ground density to the south 100-200 block? Bring them back to the alleys? Can we move density from one parcel to another? What about density along the river that we will never use? (Mr. Mosher: Historic standards still need to preserve open yards at the back of buildings in the Core Commercial area.) (Mr. Mamula: The County makes a valid point that we can't create density. Some of the council wants to move density from the town parking lots.) Think about a development agreement with owners so that this is a "covenant" or instrument of the special nature of what we're doing. (Mr. Mosher: There is a site configuration that the historic district has to abide by – extra density could be an out building, etc.)

Mr. Lamb:

25,000 added square feet of possible new over 3 blocks – it isn't really that intense. (Mr. Pringle: it depends on what the use is - what if it is a bar?)

Mr. Allen:

1 – STORAGE, 2 – RETAIL, 3 – RETAIL AND SEPARATE USE. These are the three issues to discuss. (Mr. Mosher: Didn't talk about moving non-retail uses to the basement such as bathrooms, offices, etc.) (Mr. Neubecker: Want to look at whether it is completely usable for any type of use they want to use it for which might have the greatest impact on parking issues, etc.) Skinny Winter needs 1.5 parking spaces for office/retail space; they could pay into the district for those spaces. Is there an analysis on the cost per space that the town spends and analyzing the cost per space that the town brings in? (Mr. Mamula: \$13,000 per space was done in the 80's, but it should be a lot more now.) (Mr. Mosher: We have some existing spaces now that can be used per Mr. Kulick's study.) Has anyone seen any downsides or questions to this? (Mr. Pringle: Unintended consequences are adding to the intensity of the uses in the area. I still think it is a good thing to do.) (Mr. Mosher: It might have a huge expense to do it. We need incentives.) It seems like everyone is okay with this? (Mr. Schroder: It is getting at the main goal of rehabilitation.) Abby Hall for example – how do we fit additional density there? (Mr. Pringle: We might need to find a palette of incentives for projects where it cannot apply.) (Mr. Bertaux: Give incentives based on quality of the plans. Categorize the quality of a restoration. Give points?)

Ms. Katz:

I think I was opposed previously and thought it through last night, and if the outcome from the incentives helps with rehabilitation then it is okay. (Mr. Mamula: does the town need to assist with things we really want to say? Parking requirement fee down, PIF, etc. Seems like there will need to be more incentives.) (Mr. Neubecker: Keep in mind there are good state tax incentives for commercial uses.)

Ms. Girvin:

If Motherloaded got free basement density, would it trigger the need for 11 more parking spaces? (Mr. Mosher: Yes, per the code. We took the square footage of the upper level and applied the same use – restaurant – to the basement. Staff wanted to bring up that we want to provide incentive to add basement density. Didn't take into consideration if they had additional existing density to build on the property.) Do we want to keep focusing these retail needs on Main Street? We want to keep it on Main Street and consolidate it instead of letting it sprawl. Allows ways to increase SF you can get sales tax on without increasing mass or density in the community, as well as removing sprawl. (Mr. Mamula: Setbacks on north of Main Street aren't zero lot lines, which keeps people from proposing projects to the north.) (Mr. Mosher: Ridership in transit is increasing. One example: San

Page 6 of 63

Francisco no parking requirements downtown - people must use transit.) Skinny Winter construction question - one could put a foundation underneath it without adding the density? Just a concrete slab? (Mr. Mosher: Absolutely, but when the dollars go into that they will likely want to add as much density as possible because of the cost.) (Mr. Neubecker: Logistically they could come in and add a foundation only.)

Mr. Schroder: Parking would be a limiting factor. At full capacity we are short two percentages of parking spaces. Question based on the notion that everyone will built out to full capacity. (Mr. Mamula: The real question is whether or not more people come to town those days or are we satisfying more people that are already here? Do we really have to park more people just because we have added square footage? Retail makes the most sense since it doesn't take as much water, sewer cost etc. (Mr. Neubecker: some money for parking also goes to transit program. Promotes less automobile use. Take care of the guest when they get here which is funded by parking fee.)

Mr. Allen opened the hearing to public comment.

John Cooney, local business owner: Looking at restoring our building and it is a tremendous project. We would love to completely restore the building and allow the below-grade density to be a separate commercial space at a minimum. If our building had three different retail spaces, it will add more vitality to what's happening on Main Street. If we wanted to have a yoga studio downstairs or a tattoo parlor why would the town need to police that? Incentive for us is to have the added commercial space, and we will restore the historic aspect of the building.

Mr. Mamula: Have you crunched those numbers? Is it enough of an incentive?

We haven't and others have had to do shoring, etc. for 250K. We know it is risky, and having an Mr. Cooney: incentive to do the space would be helpful. We can add 1,500 square feet so it is an incentive for us.

For others it might not be an incentive, like the Prospector.

Mr. Truckey: One thing we may have to deal with is - are we creating free density? To join up with the plan you

need to transfer density, you can't just come up with density out of thin air. What is the fraction of TDR and how are we going to address that?

Mr. Neubecker: Historic District isn't a receiving zone for TDRs. We would need to look at that.

It is a hardship to put that kind of money into that kind of square footage. Next steps are to come Mr. Mosher:

back to the PC with some cost-benefit analysis.

Summary:

Mr. Neubecker: Get in a room with the owners, what does it really take to get this to happen? The question we have tonight is what is it that they need to do to get this done? Mr. Pringle:

Ms. Katz: We're in favor.

Mr. Bertaux: Get an architect and a contractor involved to get their input.

3. Solar Panel Policy Modifications (JP)

Ms. Puester presented. The Town Council directed Staff to rewrite the solar panel ordinance to allow for additional flexibility and conformance with the Governor's Energy Office Solar Hot Water Rebate Program. Staff proposed changes to the Policy 5 (Absolute) Architectural Compatibility regarding solar panels inside and outside of the Conservation District to allow for more flexibility outside of the Conservation District. Staff also proposed some changes within the Conservation District to allow the opportunity for solar access to more property owners.

Staff took the proposed changes to the Planning Commission January 16th and the Town Council February 24th.

Commission comments at the January 16th Worksession

- Require panels which do not function to be removed.
- Ensure that the character of the Conservation District would be protected from solar panels highly visible from rights-of-ways.
- Tilted and angled panels on east/west facing rooflines should be the last resort.
- Define "highly visible".
- Have an escape clause built in that would allow for denial if something doesn't look right in the Conservation District.

Town Council comments at the February 24th Worksession

- Should not allow for panels to exceed the ridgeline.
- Tilted and angles panels should be last option.
- Have placement recommendations for both inside and outside of the Conservation District. Prove all options have been considered before applying panels on the least desired location.
- Do not allow for panels to reduce the historic rating of the building or District.
- Planning Commission should review all applications in the Conservation District carefully.

Proposed Policy Changes since January 16th meeting

- Included an order of consideration for placement of panels inside and outside of the Conservation District and associated language.
- Definition of "highly visible", "tilted panel", and "angled panel".
- Removed the allowance for panels to exceed one foot above ridgeline outside of the Conservation District.
- Language on enforcement for disrepair has been included in the policy which will need to be standardized by the Town Attorney.

Staff requested Commissioner comments on the proposed changes as well as any suggestions on the solar panel policy modification (modification to Policy 5 Absolute).

Commissioner Questions/Comments:

Mr. Bertaux: State is looking at an amount that a local municipality can charge in inspection fees. Read a synopsis of the bill that hasn't been approved yet.

Mr. Pringle: What if the case was that they got renewable energy sources on the building and then let the panels go into disrepair? Enforcement of how it looks in the future. What if they get points for renewable energy and then a few years later they don't work? (Ms. Puester: We won't know if it doesn't work unless they are noticeably broken. Would think that if people spent the money on the system, they would have it turned on if they were not broken.) (Mr. Neubecker: Concern is that people get points without it working.) Is there an inspection that it works? (Ms. Puester: Building department will inspect it.) Value engineering of projects could cut solar like at the BBC. Make sure they don't get points if the solar doesn't get built. (Mr. Neubecker: Building will last longer than the duration of the solar panels. At some point the solar panels that got positive points will no longer work. We would have renewable energy for about 20 years.) Suggested a solar farm someplace in town, people can join the district. Then all of these questions go away. Perhaps it could apply to the entire town. Offset our energy needs. (Mr. Neubecker: Good long term solution. Immediate need is that people are coming into the town asking to add solar panels to their homes/businesses.)

Mr. Allen: There's a house on Pine Street that had the solar panels recessed into the roof. That should go into the ordinance as a priority. For new construction, this could be a choice. (Ms. Puester: More integration into the roof can be stressed in the policy.)

Ms. Katz: There could be potential down the road for the feds to not allow us to regulate solar like they did with satellite dishes. (Mr. Grossheuch: There are ways to enforce it through perpetuity with covenants, etc. We recently changed the Development Code so that the site plan does not expire with the Certificate of Occupancy.) Liked the policy.

Ms. Girvin: Started with the definitions and a lot of stuff was crossed off in regard to solar hot water under solar device. (Ms. Puester: These comments come from the solar contractors; they felt like those definitions were repetitive.) So we are not precluding solar hot water? (Ms. Puester: No. Solar thermal energy is included.) (Mr. Neubecker: Trying to align our definitions with industry terms.) Would it include technologies that aren't even invented yet? (Ms. Puester: Wrote in "other similar solar technology" to hopefully cover that.)

TOWN COUNCIL REPORT:

Mr. Mamula: Between the neighborhood preservation policy and the defensible space it has been busy. Council did not call up the dormer issue. Council felt that the Planning Commission did their job. There were

Town of Breckenridge Date 03/03/2009
Planning Commission – Regular Meeting Page 7

allegations by the applicant that staff had not followed the process. (Mr. Neubecker: There is a 30

day appeal process, so we probably shouldn't talk about it.)

Mr. Mamula: Not sure where the Defensible Space is going.

Mr. Pringle: How does Council feel about the Neighborhood Preservation policy?

Mr. Mamula: Putting a 30 person task force together to look at the neighborhood preservation policy. There were

some people that were applauding the town on compatibility and character and agreed with the thought process. The paper misrepresented the policy, and at some point we'll have regulation for it. The town has done an outstanding job of preserving the historic district and large homes where they

belong.

OTHER MATTERS:

None.

ADJOURNMENT

The meeting was adjourned at 8:43 p.m.

Rodney Allen, Chair	_

Memorandum

TO: Town Council

FROM: Tom Daugherty, Town Engineer

DATE: March 5, 2009

RE: Public Projects Update

CDOT SH 9 Update

• Fairview Traffic Signal

CDOT is currently performing a warrant study for the signal. If the intersection meets warrants a signal will be placed.

SH 9, Coyne Valley Road to Valley Brook Street

CDOT has agreed to extend the 4 lane road between Coyne Valley Road and Fairview. It will not have the 18 foot median but will be 2 lanes in each direction. The 18 foot median will eventually be placed as shown in the EIS but the design for this section of road will not be ready in time to be included in this project. Instead the existing road will be widened to include 2 lanes in each direction with a stripe separation between directions.

CDOT does not plan on using Airport Road to detour traffic or bicycles during construction. They plan on maintaining one lane of traffic in each direction during construction.

CDOT has agreed to build the Rec Path south from Valley Brook Road to the area behind the road next to the Skate Board Park along the west side of the river. The Town will need to perform some work between the Skate Board Park and the Rec Path to make it meet the same standards as the exiting path.

Once CDOT selects a contract we will better understand the schedule and phasing of these projects.

> MEMO

TO: Mayor & Town Council

FROM: Tim Gagen

DATE: March 10, 2009

RE: Committee Reports

SCHA Laurie Best February 25, 2009

 Besides the normal Community updates on potential affordable housing efforts, the only other topic was a presentation by the owners of an existing mobile home park in Summit Cove that want to redevelop it into a manufactured home project for work-force housing. They want to partner with the SCHA particularly in regards to down payment assistance but do not want to use a deed restriction to maintain the affordability.

MEMORANDUM

TO: Town Council

FROM: Chris Kulick, Planner I

DATE: February 17, 2009

SUBJECT: Incentives for Renewable Energy

Recently staff has been requested to look into existing energy incentive programs that Town residents may participate in and additional ways in which the Town can incentivize energy efficiency. This memo outlines incentives currently offered to Town residents, and possible incentives the Town could offer in the future.

Current Energy Incentives for Town Residents & Property Owners

Agency	Program	Rebate/Credit	Additional Information
Town of Breckenridge (TOB)	Reduced Plan Review Fee	None	Reduced \$50 review fee for all renewable energy infrastructure.
TOB/GEO	Solar Hot Water Grant	Res: up to \$3,000 Com: up to \$9,000	Town has contributed \$50,000 in matching funds. Program has very specific eligibility requirements.
Xcel	Solar PV Rewards Program	up to \$3.50 per watt of system capacity rebate	Customers who install grid-connected photovoltaic (PV) systems ranging from 0.5 kilowatts (kW) to 10 kW-DC in capacity are eligible.
FHA	Energy Efficient Home Mortgage	None	This allows borrowers who might otherwise be denied loans to pursue energy efficiency improvements
IRS	Residential Renewable Tax Credits	Variable tax credit	Tax credits for pv, solar hot water, small wind energy, fuel cell, geothermal & fuel cell systems.
HCCC/GEO	Insulate Colorado	up to \$300 rebate	Xcel gas customers must use Xcel insulate program
Xcel	Xcel Insulate Colorado	up to \$300 rebate	Only for Xcel gas customers

Additional Incentives the Town Could Implement

Further reduce or eliminate building & planning fees

Cities and Towns such as Asheville, NC and Santa Monica, CA have waived all permitting fees associated with solar projects. Internally Town staff has looked into this incentive but has instituted a flat \$50 mechanical fee instead. This direction was taken to create a financial incentive for renewables but at the same time dissuade individuals from foregoing the permitting processes altogether. Additionally the Town charges a \$45 Class "D" planning permit fee on all renewable systems outside of the Historic District. This Class "D" fee could be potentially waived, to offer an additional incentive.

Provide sales tax rebates on Renewable Infrastructure

Presently the Town is collecting sales tax on renewable energy infrastructure that is sold and installed within the Town. In 2008 the Town received \$1,200 dollars in sales tax directly tied to renewable energy infrastructure. Currently the Town has only one renewable infrastructure provider, Innovative Energy, and 100% of the sale tax generated in 2008 came from this provider. Based off of the \$1,200 in sales tax remittance it is estimated that approximately 5-7 systems were purchased through this provider and installed in the Town in 2008. In situations where the product comes from outside of the Town limits through a third party shipper, no sales tax is paid and as a result this could incentivize residents to purchase infrastructure from a non-local source.

In April 2007 Colorado enacted legislation (SB 145) to authorize counties and municipalities to offer property or sales tax rebates or credits to residential and commercial property owners who install renewable energy systems on their property. Boulder was the first municipality to begin refunding a portion of sales under this bill. In many states, Arizona, Florida, Iowa, Massachusetts, Maryland, Minnesota, New York, North Dakota, Vermont, and Wisconsin, renewable-energy systems are exempt from the state's sales tax. Exempting renewable energy infrastructure from sales tax may be an additional low cost way to incentivize infrastructure generation.

Town Financing For Renewable Energy

Both Berkeley California and Aspen have programs that allow residents to finance renewable energy infrastructure through governmental entities. Providing government secured financing is yet another way to incentivize renewable energy.

What Other Summit Communities are Doing

Presently the Town of Frisco is the only other municipality in the County creating incentives for renewable energy. They are involved in the GEO's Solar Hot-Water Grant Program and have waived planning permit fees for renewable energy infrastructure.

Council Discussion

Staff is requesting input from the Council, if we should pursue any additional renewable energy incentives.

Memo

To: Town Council

Mark Truckey, Assistant Director

Date: March 4th for meeting of March 10, 2009

Re: Neighborhood Preservation Task Force

Staff presented the Neighborhood Preservation Policy community open house comments and survey results at the February 10th Council worksession. At that worksession, the Council directed Staff to gather volunteers for a task force to examine the issues and explore different options for addressing a neighborhood preservation policy. There are 23 citizens who have expressed interest in serving on the task force. Staff has attached the list of volunteers and their respective neighborhoods.

There were some public comments at the Council worksession suggesting the inclusion of a member from each neighborhood on the task force. As there are 17 applicable subdivisions, staff recommends a smaller task force consisting of 5-7 volunteers for functionality, while still allowing representation from a number of the neighborhoods. Staff recommends that the task force should be a diverse group consisting of members from different neighborhoods and professional experiences.

Staff would also like to have Council clarify the desired outcome and goal of the task force. Based on past Council comments, staff believes the Council has indicated their minimal expectations of the task force work. Namely, that some maximum size limitation is desired, but that the task force has the flexibility to be creative and consider numbers, formulas, and other considerations (allowing for additions) that were not presented at the open houses. Is it fair to characterize the Council's approach as such and to outline this expectation with the task force?

MEMORANDUM

To: Town Council

From: Jennifer Cram, Planner III

Subject: Updates to the Mountain Pine Beetle Ordinance
Date: February 17, 2009 (For meeting on March 10, 2009)

Attached to this memo is a draft of proposed updates to the Mountain Pine Beetle Ordinance Number 16, Series 2007. A summary of the updates are noted below.

Under Section 5-11-2, we clarified the definition of a Beetle Infested Tree.

Under Section 5-11-4, we simplified the inspection process.

Under Section 5-11-5, we simplified the inspection warrant process to be consistent with the Defensible Space inspection warrant process.

Under Section 5-11-6, we updated the time period in which property owners have to remove infested trees to one year. We want property owners to be able to get an economy of scale and remove trees for Defensible Space as well.

Under Section 5-11-7, we included language within the abatement order to allow property owners to coordinate the removal of infested trees with a Defensible Space plan.

We are proposing to remove Section 5-11-8, as we have not required a development permit to remove infested or dead trees for two seasons to encourage property owners to remove infested and dead trees in a timely manner. We will require that property owners work with approved contractors that have attended one of our training sessions. The removal of any other tree within Town still requires staff approval and a Class D permit.

We added Section 5-11-11, to clarify how Town owned properties will be treated.

We added Section 5-11-12, to include an exemption for properties that have excessively steep slopes or poor access.

Section 5-11-13 was also added to allow the Director to update the administrative rules from time to time.

These updates help to make the ordinance consistent with our current program goals. Staff will be available during the worksession to discuss these changes and answer any questions.

19

- C. The presence of the mountain pine beetle and beetle infested trees within the Town is predicted to result in lodgepole pine mortality rates of up to 95% within the foreseeable future.
- D. There exists a growing mountain pine beetle epidemic within the Town which threatens our community and its valuable natural and scenic resources.
- E. There exists an urgent need for a Town-wide policy to effectively manage the existing and future threats to public and private property caused by the mountain pine beetle and beetle infested trees. The provisions of this chapter reflect such a policy.
- F. The provisions of this chapter are necessary in order to protect the public health, safety and welfare.
- G. The inspection provisions contained in this chapter are necessary in the interest of public safety within the meaning of Rule 241(b)(2) of the Colorado Municipal Court Rules of Procedure.

5-11-2: DEFINITIONS: In this chapter, the following words shall have the following meanings, unless the context clearly requires otherwise:

"Beetle Infested Tree" or "tree infested with mountain pine beetle"	means: (i) a tree, alive or dead, which is, or has been infested with the mountain pine beetle; and (ii) any Lodge pole Pine tree that is dead or substantially dead, and all deadwood to which the bark is still attached which, because of its condition, may serve as a breeding place for the
	mountain pine beetle.
"Destruction"	means cutting and chipping a tree which is infested with mountain pine beetle; or other method of disposing of a beetle infested tree approved by the Director.
"Director"	has the meaning provided in section 9-1-5 of this code.
"Mountain Pine Beetle"	means the species Dendroctonus ponderosae.
"Occupant"	means any person in physical possession of any lot, tract or parcel of real property located within the corporate limits of the Town who is not the owner of such property. For the purposes of this

chapter, "occupant" does not include the owner of an easement or right-of-way across property.

means any person who owns any lot, tract or parcel

2

"Owner" or "landowner"

Deleted: species or variety of

Deleted: their

of real property located within the corporate limits of the Town.

"Property"

means any lot, tract or parcel of real property located within the corporate limits of the Town.

"Person"

has the meaning provided in section 1-3-2 of this

code.

5-11-3: DUTY OF LANDOWNER AND OCCUPANT TO PERMIT INSPECTION:

An owner or occupant whose property may have located on it one or more beetle infested tree shall allow the Director to enter such property for the purpose of immediate inspection of the trees located upon such property when at least one of the following events has occurred:

A. The owner or occupant has requested the inspection;

B. A neighboring landowner or occupant has reported a suspected beetle infested tree and requested an inspection; or

C. The Director has made a visual observation from a public right-of-way or area and has reason to believe that a beetle infested tree exists on the property of the owner or occupant.

5-11-4: INSPECTION FOR MOUNTAIN PINE BEETLE:

 A. Subject to the requirements and limitations of this section, the Director shall have the right to enter upon any property, whether public or private, during reasonable hours for the purpose of inspecting for the existence of a beetle infested tree when at least one of the three events described in section 5-11-3 has occurred. However, no agent or employee of the Town shall enter upon any property to inspect for a beetle infested tree without the permission of the owner or occupant, or without an inspection warrant issued pursuant to this section.

B. If verbal permission to inspect the property from the affected owner or occupant is not obtained the Director may request that an inspection warrant be issued by the municipal court. Town shall send written notice to the landowner and any occupant of the property advising that the Director desires to inspect the property for a beetle infested tree. The notice shall be sent by certified mail. The notice may be sent to the landowner at the address to which tax notices are sent according to the records of the Summit County treasurer, and to the occupant at the property address. Alternatively, the Director may personally serve such notice upon the affected owner or occupant. Where possible, inspections shall be scheduled and conducted with the concurrence of the owner or occupant.

С.	If permission to enter upon and inspect the property is not obtained within 10 days after the notice described in subsection B of this section has been received, or within 10 days of date of service if the notice is personally served, the Director may request that an inspection warrant be issued by the municipal court. The municipal court judge shall issue an inspection warrant upon presentation by the Director of an affidavit satisfying the requirements of Rule 241(b)(2) of the Colorado Municipal Court Rules of Procedure. The municipal court judge may issue an area wide inspection warrant pursuant to this section unless otherwise prohibited by law.
Đ <u>C</u> .	In case of an emergency involving imminent danger to public health, safety or welfare, the Director may enter the property to conduct an emergency inspection without a warrant and without complying with the requirements of this section.

5-11-5: INSPECTION WARRANT:

- A. The municipal court judge shall issue an inspection warrant authorizing the inspection of property located within the Town pursuant to this chapter upon presentation by the Director of an affidavit satisfying the requirements of Rule 241(b)(2) of the Colorado Municipal Court Rules of Procedure; provided, however, that when issuing an area-wide inspection warrant pursuant to subsection B of this section the Municipal Judge shall not require a showing that the owner or occupant of the property to be inspected has refused entry to the Town inspector or that the premises are locked and the Town inspector has been unable to obtain permission of the owner or occupant to enter.
- B. The municipal court judge shall issue an area-wide inspection warrant for two or more properties upon a finding that:
 - 1. The Town has established and currently maintains a program to inspect properties throughout the Town for beetle infested trees.
 - 2. There are a significant number of publicly and privately owned lands within the Town that need to be inspected for beetle infested trees, and an urgent public need to implement this chapter. The extremely high number of properties that need to be inspected in such a short time period, combined with the limited Town and Red, White and Blue Fire Protection District staff who are available to conduct the necessary inspections, makes it impracticable for the Town to attempt to obtain the individualized permission from each affected landowner before going onto the property to inspect for beetle infested trees.
 - 3. Requiring the Town to first attempt to obtain permission from the numerous landowners within the area to be inspected would frustrate the purpose of an area-wide inspection warrant; would create an undue delay in the

performance of the necessary inspections for beetle infested trees; would be 1 an unreasonable burden and precondition to the issuance of an area-wide 2 3 inspection warrant; and, as a result, would jeopardize the public health, 4 safety and welfare. 5 6 4. No good reason exists to require the Town to first seek the permission of the 7 landowners of lands to be included in an area-wide inspection warrant, and 8 there is no need to impose such a requirement on the Town as a precondition 9 to the issuance of the requested inspection warrant. 10 11 C. An inspection warrant issued pursuant to this chapter shall contain the following conditions: 12 13 14 1. The inspector shall attempt to verbally notify the affected landowner or occupants prior to beginning the inspection. This shall be done by knocking 15 16 on the front door of any building located on the property and, if the 17 landowner or an occupant is present, the inspector shall present his or her 18 credentials identifying the inspector as an employee or agent of the Town. 19 The inspector shall also explain to the property landowner or occupant the 20 purpose of the inspection. If: (a) neither the landowner nor an occupant is home when the inspector goes to inspect the property; (b) the building is 21 locked; or (c) the property consists of unimproved property, no notice shall 22 23 be required prior to the inspector entering the property to inspect for beetle 24 infested trees. 25 26 2. No Town inspector acting pursuant to an inspection warrant shall enter any 27 residence, building, or structure located upon any property without the 28 permission of the landowner or occupant. 29 30 D. The municipal judge may impose such other conditions on an inspection warrant as 31 may be necessary in the judge's opinion to protect the private property rights of the landowner of the property to be inspected, or to otherwise make the warrant 32 33 comply with applicable law. 34 5-11-**56**: NOTICE OF VIOLATION: 35 36 37 If the Director determines that the property contains one or more trees infested with A. 38 the mountain pine beetle, the Director shall notify the owner and any occupant of the 39 property. Such notice shall be given either by certified mail or personal delivery. 40 41 B. The notice shall: 42 43 1. advise the owner or occupant that the property contains one or more trees 44 infested with mountain pine beetle; 45 2. advise the owner or occupant of Town-approved methods for the removal and

- destruction of beetle infested trees; and
- 3. advise the owner or occupant that all trees infested with mountain pine beetle must be removed within 10 days one year following receipt of the notice, or that an acceptable plan and schedule for removal of the beetle infested trees must be submitted to the Director within such 10 day period.
- C. If the owner or occupant disputes that the property contains one or more trees infested with mountain pine beetle, the owner or occupant shall notify the Director of such dispute within 10 days of receipt of the Director's notice. If a timely notice of dispute is given, the Town shall not file an application for an abatement order until the Director has met with the disputing party in an effort to resolve the dispute. If the Director meets with the disputing party and is unable to resolve the dispute, the Town may file an application for an abatement order pursuant to section 5-11-6.

5-11-67: ABATEMENT ORDER:

- A. In the event the owner or occupant fails to comply with the Director's notice as described in Section 5-11-5 by removing the beetle infested trees or submitting an acceptable schedule for such removal that coincides with the creation of Defensible Space within the applicable 10 day period, the Town has the authority to provide for and complete the removal by obtaining and acting on an abatement order.
- B. Upon the expiration of the period of notice, or at any time thereafter if the required action has not taken place, the Town may apply to the municipal court for an abatement order.
- C. An application for an abatement order shall be accompanied by an affidavit affirming that:
 - 1. the Director has determined that the subject property has one or more trees infested with mountain pine beetle;
 - the Director has complied with the notice requirements of Section 5-11-5;
 and
 - 3. the owner or occupant has failed to either remove the beetle infested trees or to submit an acceptable plan and schedule for removal of the beetle infested trees within the required time.
- D. The Town shall give notice to the owner and any occupant of the property of its application for an abatement order either by certified mail or by personal service of the notice.
- E. The notice of application for an abatement order shall include a copy of the Town's application and its affidavit in support thereof, as well as the date, time, and place at which the Town will appear before the Municipal Court to request entry of the abatement order.

- F. At the stated time, date, and place, the municipal court judge shall review the Town's application for <u>the</u> abatement order, the affidavit, any statement of the Town offered in support thereof, as well as any statement and evidence presented by the owner or occupant, if present.
- G. If the municipal judge determines that:
 - the subject property has one or more trees infested with mountain pine beetle:
 - the Director has complied with the notice requirements of Section 5-11-5;
 - 3. the owner or occupant has failed to either remove the beetle infested trees or to submit an acceptable plan and schedule for removal of the beetle infested trees within the required time,

the municipal court judge is authorized to enter an order permitting the Town to enter upon the property, remove the beetle infested trees, and recover its costs as provided in subsection K of this section.

- H. An owner is responsible under this chapter for any beetle infested trees permitted to remain on the owner's property by an occupant after the Director has given notice of a violation pursuant to section 5-11-5.
- In case of an emergency involving imminent danger to public health, safety or welfare, the Town may authorize immediate removal of any beetle infested tree without notice or abatement order.
- J. The Town may pursue the remedies set forth in this section with or without filing a complaint in the municipal court, at the Town's sole discretion.
- K. The owner or occupant shall be assessed twice the whole cost of removal of the beetle infested trees from the property, including administrative fees. If all of the costs and charges incurred by the Town are not paid within 30 days of the date of the assessment, the unpaid costs shall be certified to the Summit Treasurer for collection in the same manner as real property taxes.

5-11-7<u>8</u>: <u>NO DEVELOPMENT PERMIT FOR REMOVAL OF BEETLE INFESTED TREE: No Development Permit shall be required to remove any current year infested or dead Lodge pole Pine tree provided that the property owner either contacts Town Staff to prior to removing said trees themselves, or works with a Town approved contractor.</u>

5-11-89: UNLAWFUL ACTS:

A. It shall be unlawful and a misdemeanor offense for any owner or occupant to fail

Deleted: The Director shall issue a Class D development permit to any owner or occupant desiring to remove one or more beetle infested tree from his or her property

Deleted:

Deleted: There shall be no application fee for the development permit. The application shall contain a written narrative describing the type, size, quantity and general location of the beetle infested trees proposed to be removed. The Director shall perform a site visit prior to action on the development permit application

1 or refuse to remove all beetle infested trees from their property within the time period provided for in a notice of violation sent by the Director pursuant to 2 3 section 5-11-5 of this section. 4 5 B. It shall be unlawful and a misdemeanor offense for a owner or occupant to deny 6 the Director access to the property owned or occupied by the owner or occupant if 7 the Director presents an inspection warrant issued pursuant to this section. 8 9 C. It shall be unlawful and a misdemeanor offense for any person to sell, expose for 10 sale, offer for sale, transfer, give away or offer to give away any beetle infested tree anywhere within the Town. 11 12 13 5-11-910: APPLICABILITY: Except as provided in section 5-11-11 and 5-11-12, Tthe 14 provisions of this chapter shall apply to all public and private lands within the corporate limits of 15 the Town. 16 17 5-11-11: TOWN PROPERTY: The inspection of Town-owned property, and the removal 18 of beetle-infested trees from such lands, shall be determined by the Town Council in its 19 considered judgment. The Town Council shall consult with the Town of Breckenridge 20 Open Space Advisory Commission with respect to the inspection of and removal of beetle-21 infested trees from Town-owned open space parcels. In determining how to proceed with 22 respect to the inspection and removal of beetle-infested trees from Town-owned real property the Town Council shall consider, access, steep slopes, and ecological sensitivity 23 along with established budgetary priorities; the availability of public funds to conduct such 24 inspections and removal actions; as well as any other applicable budgetary constraints or 25 limitations. The provisions of this chapter shall not apply to the inspection of Town-owned 26 27 property and the removal of beetle-infested trees from such lands. 28 29 5-11-12: EXCEPTION: The provisions of this chapter shall not apply to property that has 30 steep slopes or poor access making it unreasonable for the landowner to be required to 31 inspect and remove beetle infested trees. The Director's regulations shall more specifically 32 identify the property to which the exception in this section applies. 33 34 5-11-13: RULES AND REGULATIONS: The Director has the authority from time to time to adopt, amend, alter and repeal administrative rules and regulations as necessary for the 35 proper administration of this chapter. Such regulations shall be adopted in accordance 36 37 with the procedures established by Title 1, Chapter 18 of this Code. 38 39 Section 2. Section 5-1-7(M) of the <u>Breckenridge Town Code</u> is hereby deleted. 40 41 Section 3. Except as specifically amended hereby, the Breckenridge Town Code, and the various secondary codes adopted by reference therein, shall continue in full force and effect. 42 43 44 Section 4. The Town Council hereby finds, determines and declares that this ordinance is 45 necessary and proper to provide for the safety, preserve the health, promote the prosperity, and

Memo

To: Town Council

From: Julia Puester

Date: March 3rd for meeting of March 10, 2009

Re: Locomotive #9 Budget Status and Request

The Council released \$11,000 to the Breckenridge Heritage Alliance (Alliance) to fund design services to explore two potential sites for the Locomotive #9 train park. The conceptual design of the potential sites were completed Mary Hart Design, utilizing the \$11,000 in funds. At the August 26th Council worksession, the majority of Council voted that the preferred site was at the Wellington Lot.

Town staff has been working with the Breckenridge Heritage Alliance to design a site plan and shelter for Engine #9. The plans are near complete for presentation to the Planning Commission and Town Council with the exception of the shelter material sizing (trusses, posts, beams, etc.) and the locomotive maintenance pit. In responding to the Planning Commission and Council concerns regarding the structure type and fit with the Historic District, staff has suggested a stick built structure rather than a pre-fabricated structure as originally presented by the Alliance. The pre-fabricated building would include engineering costs by the manufacturer. In order to have correct building material sizing for a stick built structure and maintenance pit details, the Alliance is requesting that \$5,000 be released by the Town Council for the Professional Engineer (P.E.) to finalize the plans with correct sizing requirements for the structure and maintenance pit. Knowing the size details will allow for an accurate budget and elevations to be presented to the Council along with the development application.

To: Mayor and Town Council Members

From: Director of Communications, on behalf of the "Breck 150" Steering Committee

Cc: Town Manager, Assistant Town Manager, "Breck 150" Steering Committee

Date: March 4, 2009 (for 3.10.09 meeting)

RE: Breck150th Update and Rollover Request

History:

Based on the "Breckenridge 150: A Springboard for Heritage Tourism" report, a central organizing committee was formed in August 2007 and work began on efforts to celebrate Breckenridge's 150th anniversary milestone. The Steering Committee consists of representatives from the Breckenridge Resort Chamber (BRC), the Breckenridge Heritage Alliance (BHA), the Town of Breckenridge (ToB) and the Breckenridge Ski Resort (BSR).

In November 2007 Town Council approved a total of \$300,000 towards marketing efforts of the Breck150, of which \$165,000 was slated for 2008's budget and \$135,000 for 2009's budget.

In July 2008 the Council reviewed several capital and special fund projects, including the Breck150 marketing efforts. The decision was made to temporarily freeze 2008 funds that had not yet been committed. \$45,500 had been spent, leaving \$119,500 for 2008 that was frozen.

On September 23, 2008, Council 'unfroze' \$85,000 in funding for various time sensitive projects; this left \$34,500 of funds frozen for 2008. In November 2008, Council approved \$135,000 for the 2009 budget (from the original total Breck150 request).

The Steering Committee meets one to two times a month to review financials and projects, and there are five subcommittees that are working on various aspects of this celebration. The Steering Committee heard the Council's concerns about not competing with our business community, and carefully scrutinizes the funding on an on-going basis.

2008 Project Highlights:

- *Creative/Logo* a 'tool kit' was completed for BOLT holders to use at no charge and outlines a few ideas of ways to get involved with Breck150.
- 'The Golden Stories of Breckenridge 150 Years' DVD Wendy Wolfe has been working on a documentary production in HD (High Definition).

- Newsletter to BOLT holders first issue mailed in Oct., second issue mailed late last week. These are done in-house and a portion of the printing has been graciously donated by Laser Graphics.
- Bus ads five 'character' ads were developed and are running in the three transit systems: Free Ride, BSR and the Summit Stage.
- Banners for various events two 3 x 5 banners are being used at various events throughout the year to brand the celebration.
- Buttons for employees two sizes of buttons have been produced and are continually being distributed to businesses for employees to wear.
- Window decals produced and continually being distributed to businesses to display for the year.
- Website Breck150.com was developed and continues to be updated.
- The Gold Pan's Breck150 Local's Launch hosted and organized by the Gold Pan staff, with food provided by Breck150 funds, in early November.
- *Blogger* launched in December by Lisa Mercer and includes Summit Daily News blog, MySpace page, and a FaceBook page.
- Courthouse Time Capsule investigation was completed to gauge the feasibility of removing the time capsule (from 1909), and work continues to remove and replace as part of the Grand Celebration in August 2009.
- 'Colorado Gold Trail' grant our application to the Colorado Tourism Office was accepted; it includes a collaboration with Boulder, Black Hawk/Central City, Idaho Springs, Park County (Fairplay, Alma and Como) and Leadville; and is similar in concept to a scenic byway and will promote a route for visitors to travel along the Colorado gold mining discoveries.

2009 Projects-in-process Highlights:

- *Over-the-road banner* banner across Main Street to be utilized at times when there are no event-specific and non-profit needs.
- *Heritage-specific advertising* specifically chosen to compliment editorial, including The History Channel Magazine, Preservation, AAA EnCompass, history.com, Smithsonian.com; for the April thru June issues/time frame.
- *Program/Guide Book(s)* similar to International Snow Sculpture Championship's guides, would like to produce a March/April version to entice visitors back for the summer, and a summer version to outline events and activities.
- *Photography* to provide documentation of this milestone year and to use for future heritage tourism-based efforts.
- *Lamp post banners* as part of the wayfinding recommendation, approximately 40 banners would be placed on available lamp posts throughout the downtown core.
- Buildings: Then & Now framed historical snapshot of a specific building to display inside the business; approximately 75 are being developed.
- *Table Tents* for restaurants and other businesses; to promote upcoming events and activities.

• EVENTS:

- Kick-off Party April 4 in Main Street Station Plaza focusing on the 'white gold' boom (skiing), including live music, kids activities, an anniversary 'toast'.
- o *Grand Celebration* August 8 around the County Courthouse, including the time capsule unveiling; state and regional dignitaries are being invited.
- o Railroad Days/Mining Weekend mid-to-late August.
- Historic Properties events throughout late-spring, summer and fall at various properties; including but not limited to the Carter Museum Grand Re-opening.
- In addition, the Events committee is working with various non-profit organizations on including the Breck150 into existing and new events. These include Quantum Ski Club's 'Retro Ski Bash' (4/4), Summit Choral Society's mining/bluegrass-themed free concert at the Riverwalk Center (6/20), NRO's 50th Anniversary Bash (7/3), and more.

2009 Contingency Possibilities:

- Front Range advertising a possible TV sponsorship for the Breck150 summer events and activities.
- *Breck150 reusable bags* working with the lodging community to promote reusable bags in their rooms for guests; these bags would promote upcoming events and be provided to the lodging companies from this fund. NOTE: The committee heard the concerns about not competing with merchants so this would replace the majority of the 'Merchandise and Collectibles' line item.

Rollover Request:

At year-end 2008, approximately \$73,000 was spent on Breck150 marketing out of the Special Projects fund, of which \$130,500 was the revised spending authority (in Sept).

- Request A 'unfreeze' \$34,500 from the approved 2008 budget AND the
 'unfrozen in September but not spent' amounting to \$57,500, totaling a rollover of
 \$92,000. This represents the full \$300,000 total Breck150 marketing
 opportunities, and would allow the completion of the 2009 projects-in-process
 AND the ability to take advantage of the contingency possibilities.
- Request B \$57,500 which represents the revised spending authority granted in September that was not spent in 2008. This represents a \$265,500 total project budget for Breck150 marketing. This would allow the committee to complete the 2009 projects-in-process.

Thank you for your consideration. I'll be in attendance to answer any questions.

TOWN OF BRECKERIDGE TOWN COUNCIL REGULAR MEETING TUESDAY, FEBRUARY 24, 2009 PAGE 1

CALL TO ORDER and ROLL CALL

Mayor Warner called the February 24, 2009 Town Council Meeting to order at 7:50 p.m. The following members answered roll call Mr. Mamula, Ms. McAtamney, Mr. Millisor, Mr. Bergeron, Mr. Rossi and Mayor Warner. Mr. Joyce was absent.

APPROVAL OF MINUTES - February 10, 2009 Regular Meeting

Mayor Warner commented that under the Mayor's Report he would like it to reflect that his report was submitted electronically. With that one change to the minutes Mayor Warner declared them approved.

APPROVAL OF AGENDA

There were no changes to the agenda.

COMMUNICATIONS TO COUNCIL

- A. Steven H. Hart Award
- B. Citizen's Comment (Non-Agenda Items ONLY; 3 minute limit please) There were no public comments.

CONTINUED BUSINESS

- A. SECOND READING OF COUNCIL BILL, SERIES 2009 PUBLIC HEARINGS**-
- 1. Council Bill No. 5, Series 2009- AN ORDINANCE AMENDING THE TOWN OF BRECKENRIDGE LAND USE GUIDELINES CONCERNING ACCEPTABLE LAND USE TYPES AND INTENSITIES IN LAND USE DISTRICT 31

Tim Berry commented that the ordinance will amend Land Use District 31 Guidelines. There were two minor changes of which Tim explained.

Mr. Bergeron moved to approve Council Bill No. 5, Series 2009 on second reading on the form that was handed out. Ms. McAtamney seconded the motion. Mayor Warner asked for public comment. There was none. He closed the pubic hearing. The motion passed 6-0.

2. Council Bill No. 6, Series 2009- AN ORDINANCE AMENDING SECTION 9-1-21 OF THE BRECKENRIDGE TOWN CODE BY ADOPTING THE "BRECKENRIDGE 2009 TRANSIT OPERATIONS PLAN" AS A CORRELATIVE DOCUMENT TO THE BRECKENRIDGE DEVELOPMENT CODE

Tim Berry commented that the ordinance would make the Town Transit Plan a correlative document under the Development Code. There were no changes from first reading.

Mr. Rossi moved to approve Council Bill No. 6, Series 2009 on second reading with the additional changes. Mr. Mamula seconded the motion. Mayor Warner asked for public comment. There was none. He closed the pubic hearing. The motion passed 6-0.

NEW BUSINESS

- A. FIRST READING OF COUNCIL BILL, SERIES 2009- NONE
- B. RESOLUTIONS, SERIES 2009
- **1.** A RESOLUTION AMENDING THE TOWN OF BRECKENRIDGE MASTER PLAN TO INCLUDE THE "BRECKENRIDGE 2009 TRANSIT OPERATIONS PLAN" AS A PART THEREOF

Tim Berry commented that the resolution would amend the Town's Master Plan to incorporate the new Transit Plan. A public hearing also needs to be held. We have complied with the notice requirements.

TOWN OF BRECKERIDGE TOWN COUNCIL REGULAR MEETING TUESDAY, FEBRUARY 24, 2009 PAGE 2

Mr. Millisor moved to approve the Resolution, Series 2009. Mr. Mamula seconded the motion. Mayor Warner asked for public comment. There was none. He closed the public hearing. The motion passed 6-0

2. A RESOLUTION MAKING CERTAIN FINDINGS OF FACT AND CONCLUSIONS REGARDING THE PROPOSED ANNEXATION TO THE TOWN OF BRECKENRIDGE OF A PARCEL OF LAND (Entrada – 3.98 acres, more or less)

Tim Berry commented that the resolution will verify that the property meets all of the statutory requirements, and is therefore eligible for annexation to the Town. By adopting the Fact Finding Resolution the Council is not agreeing to annex the property. The Council will retain its discretion with respect to that question until the time of the consideration of the actual Annexation Ordinance.

Mr. Mamula moved to approve the Resolution, Series 2009. Mr. Bergeron seconded the motion. Mayor Warner asked for public comment. There was none. He closed the public hearing. The motion passed 6-0.

C. OTHER

Mayor Warner commented to Mike McCormick that the Council was unanimously in support of The Breck Epic and the letter of support.

PLANNING MATTERS

A. Planning Commission Decisions of February 3, 2009

An applicant did request a call up. Planner, Chris Kulick, gave a brief presentation of the request. Mayor Warner asked if anyone would like to call an item off the Consent Calendar. Mayor Warner declared the Planning Commission Decisions of February 17, 2009, would stand approved as presented.

B. Report of Planning Commission Liaison

Mr. Mamula had no report.

REPORT OF TOWN MANAGER AND STAFF

Mr. Gagen had no report.

REPORT OF MAYOR AND COUNCILMEMBERS

- A. **CAST/MMC** (Mayor Warner) Mayor Warner had nothing to report.
- B. **Breckenridge Open Space Advisory Commission** (Mr. Rossi) Mr. Rossi had nothing to report
 - C. **BRC** (Mr. Bergeron) Mr. Bergeron had nothing to report.
- D. **Summit Combined Housing Authority** (Ms. McAtamney) Ms. McAtamney had nothing to report.
 - E. **Breckenridge Heritage Alliance** (Mr. Joyce) Mr. Joyce was absent.
- F. **Peak 6 Task Force** (Mr. Rossi) Mr. Rossi commented that the public forum will be on March 11.

OTHER MATTERS

Ms. McAtamney commented on the graffiti. Chief Holman commented that stickers are more prevalent. They have handed out over 200 letters asking businesses to be more aware of what is happening with the stickers being handed out or sold. Mayor Warner thanked the Chief of Police for looking into the Warriors Mark stuff.

ADJOURNMENT

At 8:30a.m. Mr. Rossi moved that the Council go into executive session pursuant to Paragraph 4(b) of Section 24-6-402, C.R.S., relating to conferences with the Town Attorney for purposes of receiving legal

March 3, 2009

Breckenridge Town Council Town Hall, 150 Ski Hill Road, PO Box 168 Breckenridge, CO 80424

Dear Breckenridge Town Council,

Friends of the Dillon Ranger District (FDRD) experienced a tremendous 2008 volunteer season. Thank you for your support of our 2008 Forest Stewards Program (the Program), the cornerstone of our volunteer efforts.

Enclosed please find the Program final report, including an overview of FDRD, an overview of the Program and photos of our 2008 efforts. The progress report, filed in August 2008, included the Program Manual.

Please contact me if you have any questions regarding the final report.

In 2009, Breckenridge's continued support will allow FDRD to further enhance the 2009 Stewardship Program and its offerings. We will continue our Adopt-A-Trail effort on Breckenridge area trails and will co-host two 2 day trail maintenance projects on the Peaks Trail and on Glacier Peak Trail. Finally, we will pursue additional partnership projects, including, but not limited to, Town Clean-Up Day, service projects and "on-demand" projects.

On behalf of the diverse members of FDRD's Board of Directors and staff, please accept our thanks for your commitment to making our community and the Dillon Ranger District a better place to live and visit. With your continued support, we will inspire others to adopt and implement stewardship into their own lives. Together, we will ensure that these natural resources are available for the enjoyment of this and future generations.

Your partnership is very important to us and we look forward to our future efforts together.

Sincerely,

Guff Van Vooren
Executive Director

Friends of the Dillon Ranger District 2008 Forest Stewards Program Town of Breckenridge Grant Final Report

In 2008, FDRD refined and strengthened the Forest Stewards Program (the Program) on Summit County's National Forest lands. The Program includes the following initiatives - Adopt-A-Trail, Crew Leader, Ranger Patrol, Outreach Educator, Family Stewards, and Youth Stewards efforts.

The goals of this ongoing volunteer program are to improve the quality of our natural resources and improve the quality of the multiple-use recreationist's experience, on these lands through improved trail systems, education, inventorying and monitoring. These efforts help ensure that Summit County, including the Town of Breckenridge, remains a top choice for people to live and visit.

In 2008, the Program was funded by the Town of Breckenridge, the National Forest Foundation, The Summit Foundation, Copper Mountain Resort, Colorado State Parks-Trails Program-GOCO Fund, Alpine Bank, Vail Resorts, the Towns of Frisco, Silverthorne, and Dillon, and FDRD Members.

The 2008 Program included 51 Forest Stewards and 7 local groups. On-the-ground training and implementation of the Program resulted in 5,991 volunteer hours (1,033 volunteer days), valued at \$116,825. Program coordination and web-development resulted in an additional 469 volunteer hours, valued at \$11,063. Total impact for the Program was 6,460 hours, valued at \$127,887.

2008 Program Highlights include:

- <u>Training</u> FDRD hosted 11 training sessions (199 volunteer service days; 1,182 hours) for FDRD
 Forest Stewards and Friends of the Eagles Nest Wilderness Ranger Patrols and co-hosted two
 training sessions for 25 state-wide and FDRD crew leaders.
- <u>Crew Leaders, Adopt-A-Trails, and Youth Stewards</u> On 681 volunteer days, (3,982 hours on 31 projects), volunteers (including 28 youth) scouted trails, performed trail maintenance on 13 miles, and cleared 113 trees.
 - o **Breckenridge area Adopt-A-Trail Maintenance efforts** On 3.5 miles of the Peaks Trail, Spruce Creek Trail, and in the Golden Horseshoe area, 175 volunteers performed trail maintenance on 11 projects, generating 1,000 hours valued at \$19,500!
 - State and Regional partner projects in partnership with Volunteers for Outdoor Colorado and Continental Divide Trail Alliance, 220 local, state, and regional volunteers improved 3.8 miles of two trails on three 2-day projects.
 - Other FDRD projects in the Breckenridge area In addition to the above total impacts, FDRD hosted 2 trail maintenance and 2 week pull projects in the Town of Breckenridge. 46 volunteers maintained .2 miles of trail and pulled weeds on 5 acres of land, generating 233 hours valued at \$4,544.
- Ranger Patrols, Outreach Educators, and Family Stewards (209 volunteer days; 1,168 hours) On 868 miles of trails, at the Ranger Station, and at marketing events, these volunteers contacted 5,875 visitors providing one-on-one information, answering questions, and sharing stewardship opportunities.

These efforts bring sustainability to the trails of our local National Forest lands. Our work from past years has held up well, which showcases the value in training our volunteers to do exceptional work. These improved recreation opportunities enhance the Town of Breckenridge's economy - guests will continue to visit the Town of Breckenridge and these terrific recreational amenities, staying in local lodges, dining in local restaurants, and purchasing goods and services in local businesses.

As well, these efforts enhance the great sense of community in Breckenridge. Town residents, businesses and guests participate in these projects, connecting to each other and to these lands. The

Friends of the Dillon Ranger District 2008 Forest Stewards Program Town of Breckenridge Grant Final Report

forest guests they've encountered have been happy (and often relieved!) to see Forest Service volunteers on the trails – they've asked many questions regarding their experience and have been very thankful for their assistance. At the end of a safe, fun, and productive day, volunteers actually see the results of their labor of love – user-friendly tread and erosion control structures on trails, wildflower meadows free of invasive weeds, and tree seedlings replanted in campgrounds – they know they made a big difference to these treasured resources! To be sure, these Stewards improve the quality of the recource, improve the quality of the recreationists' experiences, and inspire a sense of stewardship and community in everyone they encountered. **Breckenridge's support helps make this happen!**

FDRD is proud to partner with the Town of Breckenridge in FDRD's Forest Stewards Program. We appreciate your support in our first year of partnership together and look forward to future partnership and relationship building opportunities in this and future years.

Scott Fussell, a 3rd year FDRD Forest Stewards Crew Leader, reflects, "I have been hiking Summit County Trails for years, and now have found a way to give back, and make those trails more enjoyable."

Scott's efforts, along with the 50 other Forest Stewards and the Town of Breckenridge, will help FDRD accomplish these Forest Stewards Program goals in this and future years!

FDRD 2008 Forest Stewards Program

Crew Leaders and Adopt-A-Trails

Crew Leader and Summit Seniors Center volunteers build erosion control structures in a boggy section of the Spruce Creek Trail. Each Adopt group commits to 4 projects on their "adopted" trail throughout the summer.

FDRD's 100th Project

Christy Sports and SE Group staff celebrate FDRD's 100th project on their 3rd (of 4) adopt projects on the Peaks Trail

MEMO

TO: Town Council

FROM: Town Attorney

RE: Shared Private Driveway Ordinance

DATE: March 3, 2009 (for March 10th meeting)

At the January 13, 2009 worksession we discussed a draft ordinance attempting to address the problem of parking on a shared private driveway. As I use the term, a "shared private driveway" is a common driveway providing the primary means of ingress and egress for two or more residential properties.

As I mentioned in January, the Town does not currently have an ordinance regulating parking on a shared private driveway.

When we discussed the ordinance in January there seemed to be a general Council consensus (although certainly not unanimous) supporting an ordinance prohibiting a person from parking a vehicle upon a shared private driveway in such a manner as to "block or impede the lawful use of such driveway by any person entitled to use the driveway, or by any authorized emergency vehicle."

You may recall that the January version of the ordinance also included a provision prohibiting a person from parking a vehicle on a shared private driveway "other than in a Town-approved parking area". This provision was intended to prevent parking on a shared private driveway by occupants of a "single family accommodation unit" as defined in the Town's BOLT Ordinance. It did this by essentially making a violation of the approved BOLT parking plan for a single family accommodation unit a violation of the Town's Traffic Code. As I mentioned in January, I have become uncomfortable with this part of the proposed Shared Driveway Ordinance, and the discussion of the proposed Shared Private Driveway Ordinance was continued to give me time to try to address this part of the ordinance.

After further consideration it appears to me that the issue of possibly enhancing the parking restrictions for a single family accommodation unit under the BOLT Ordinance should be addressed (if at all) in a revision to the BOLT Ordinance itself, rather than as an amendment to the Town's Traffic Code. It has become apparent that the issue of single family accommodation unit parking is more complicated than I first envisioned, and I would like the opportunity to work with the Town Clerk and the Police Chief to see if clarifications of the parking provisions of the BOLT Ordinance are needed. While I look into this issue, however, the Council can consider the proposed the amendment to the Model Traffic Code prohibiting a person from "blocking or impeding" a shared private driveway.

Enclosed is a revised version of Shared Private Driveway Ordinance. The ordinance includes only the "block or impede" provision that you reviewed in January. Gone from the enclosed version of the ordinance is any reference to parking only in a "Town-approved parking area."

Based on my understanding that in January a majority of the Council supported the adoption of the "block or impede" provision, I have asked that the enclosed ordinance be scheduled for both worksession and possible first reading approval on Tuesday. However, if the Council is not comfortable with the revised ordinance it can certainly be removed from the nighttime agenda and either revised further and brought back at a later date, or simply discarded.

I look forward to discussing this ordinance with you on Tuesday.

FOR WORKSESSION/FIRST READING – MARCH 10

MEMORANDUM

TO: Town Council

FROM: Matt Thompson, AICP

DATE: March 3, 2009 (For Town Council meeting on 3/10/09)

SUBJECT: Real Estate Open House Signs

Based on input from the local real estate community, the Town Council has asked Staff to consider working with realtors on a proposal to change the Sign Code related to open house signs. Currently, the Sign Code exempts one open house sign per property, which must be on-site. In order to improve visibility and awareness of open house events, Staff has considered the following options:

- 1. **No change to existing policy**. Leave Sign Code as is.
 - This would reduce clutter and not create precedent for other businesses and industries that would also like to use off-premises signs. Also, fairly easy to enforce.
- 2. **Realtors' original proposal**: Allow up to 5 off-premises signs.
 - Allow existing signs with agency name and colors.
 - Allow off-site signs on Main Street, Highway 9, and Park Avenue.
- 3. **Kiosk at entry to Town**: Construct a kiosk at the entry to town with information, brochures and maps directing prospective buyers to open houses.
 - Provides a central location that buyers could visit and find out about all open houses in town that day.
 - May eliminate the need for off-premises directional signs, but some visitors would still benefit if directional signs were allowed.
- 4. **Information at Welcome Center**: Use the Welcome Center as a clearing house for information and maps to open houses.
 - This could be done on a separate computer, or with a daily listing of open houses. All open houses that day could be placed on one sheet and map, with properties numbered on a map.
 - Benefit is that off-premises open house signs would not be needed.
- 5. **Central Website**: The real estate community could develop a central website.
 - All open house events are promoted, including details on the realtor, sales prices, home size, and maps to the open house.
 - Prospective buyers could print their own maps.
- 6. **Open House Bus**: A bus or van could be used to tour open house events.
 - Prospective buyers could hop on and off as they wish.

- The bus could do laps around town, and would return to each open house so that guests can get back to their starting point.
- 7. **Kiosks at subdivision entry**: Each subdivision could have a small kiosk with information on open house events for a particular day.
 - The realtor would drop off maps at the beginning of the open house event, and would be responsible for removing out-of-date materials.
 - Space may be a concern, and many HOAs may not want to see the kiosk at the entry to their neighborhood.

8. CURRENT MODIFIED PROPOSAL: This option would allow only 3 off-premises open house signs per property.

- No signs would be allowed on Park Avenue, Main Street or Highway 9.
- All signs would be required to be a consistent color.
- Signs would identify the realtors with a phone number. This helps the prospective buyer to follow the right signs, and helps staff enforce the policy. No permits would be required.
- This is the proposal developed by Staff with input from realtors after the last work session with Town Council.
- Signs only allowed off-site from 8:00 a.m. to 8:00 p.m.
- Signs only allowed one (1) hour before and one (1) hour after open house.
- Only one (1) sign per intersection, per direction.

Changes from the December 9, 2008, Town Council worksession:

- Dropped the number of off-site signs proposed from five (5) to three (3).
- Prohibit off-site signs in the Conservation and Historic Districts, Highway 9, and Park Avenue.
- Added a one-year sunset provision.
- Added language to proposed ordinance allowing the Planning Director (and Staff) and the Police Chief (and Staff) to remove open house signs that do not comply with the ordinance.
- Added language stating the Town is not liable for damage done to an open house sign in the Town right of way.

Staff still believes that enforcement of this ordinance will be problematic. For example, enforcing the number of signs per property will involve following the route to the open house. Also, if two signs are placed at one intersection, pointing in the same direction, Staff will not know which sign was placed first, and which sign is in violation. Also, many open houses are held on weekends, outside of Planning Staff working hours. As proposed (and as currently allowed), these signs are exempt, and no permit is required.

The Town Attorney has prepared an attached proposed Sign Code Amendment for first reading.

We welcome Council comments on any of the ideas listed above.

I. For Sale/For Rent/Open House/Model Open Signs: "For Sale", "For Rent", "Open House", and "Model Open" signs, subject to the following limitations:

1. Within the Conservation of Historic Districts, one "For Sale" or "For Rent" sign may be displayed on each lot, in addition to one on-site "Open House" sign, in addition to one "Open House" sign; provided, however, that if two (2) or more contiguous lots are held in common ownership only one "For Sale" or "For Rent" sign shall be displayed with respect to all of such lots.

2. Outside of the historic district, one "For Sale" or "For Rent" sign may be displayed on each lot.

 3. "For Sale" and "Open House" signs shall not be larger than four (4) square feet per side; "For Rent" signs shall not be larger than one square foot per side. "Open House" signs are allowed only during the open house event. No "Open House" or "For Sale" sign shall be located off the property which is for sale. However, in cases where a condominium or townhouse footprint lot is for sale and no private land outside of the boundaries of the unit is associated with the sale of the property, one additional "For Sale" or "Open House" sign may be located on common property, with approval of the homeowners' association.

4. "For sale" and "for rent" signs shall be removed within five (5) days after the sale or rental of the subject property.

5. A "model open" sign shall be allowed with the same limitations as an "open house" sign.

6. "Open house" signs may take the form of temporary sandwich board signs, notwithstanding subsection 8-2-15I of this chapter. "Open House" signs are subject to the following limitations:

a. Location of Open House Signs:

1. No off-site directional open house sign is allowed anywhere within the Conservation and Historic Districts.

1	2. No open house sign is allowed within the rights of way of Colorado

5	Town street, or on any public sidewalk.
6	TO HIS DIE CON ON ON ON PROME SINCE HUMB
7	4. No open house sign may obstruct any public street, sidewalk, recreational
8	path or any public snow removal operations.
9	
10	5. An on-site open house sign must be located on the property being shown
11	for sale or rental at the open house event. No on-site open house sign may be
12	located off-site (including at off-site real estate offices and off-site sales
13	centers).
14	
15	6. No open house sign is allowed within any designated public pedestrian
16	area.
17	
18	7. No open house sign may be located on private property without the
19	consent of the property owner.
20	
21	b. Number of Signs:
22	
23	1. Not more than three open house directional signs per property for sale or
24	for rent may be placed within any Town right-of-way or located at an off-site
25	private property,
26	
27	2. Not more than one directional open house sign may be placed pointing in
28	each direction at each intersection of Town streets.
29	
30	c. Area: The maximum sign area of an open house sign is four (4) square feet.
31	
32	d. Height: The height of an open house sign may not exceed five feet (5') as
33	measured from the top of the sign to the grade at the base of the sign.
34	
35	e. Display Duration:
36	
37	1. An open house sign may only be displayed beginning up to one (1) hour
38	before the start of the open house, and must be removed no later than one (1)
39	hour after the conclusion of the open house.
40	
41	2. An open house sign may only be displayed between 8:00AM and 8:00PM
42	<u>each day.</u>
43	2. A
44	3. An open house sign may not be displayed for more than three (3)
45	consecutive days.

7	color. The lettering of each open house sign shall be white.
8	
9	i. Logo: A logo or name of the real estate company or agent conducting the
10	open house, not larger than 9" x 6" in area, may be placed on each open
11	<u>house sign.</u>
12	: Town Not Liable. The Town is not liable for domage done to an ener
13 14	j. Town Not Liable: The Town is not liable for damage done to an open
15	house sign that is located within a public right of way.
16	Section 3. Section 8-2-15(F) of the Breckenridge Town Code is amended so as to
17	read in its entirety as follows:
18	read in its charety as follows.
19	F. Off premises signs, except as specifically authorized in section 8-2-6(I)
20	of this chapter.
21	
22	Section 4. Section 8-2-16 of the Breckenridge Town Code is amended by the addition of
23	a new subsection G, which shall read in its entirety as follows:
24	
25	G. Authority To Remove Signs From Right of Way: In lieu of the other
26	enforcement procedures of this section, either the Director or the Police
27	Chief may remove and destroy any sign that is illegally placed within a Town
28 29	right of way in violation of the provisions of this chapter.
30	Section 5. Except as specifically amended hereby, the Breckenridge Town Code, and the
31	various secondary codes adopted by reference therein, shall continue in full force and effect.
32	various secondary codes adopted by reference mereni, shan continue in fun force and effect.
33	Section 6. The Town Council hereby finds, determines and declares that this ordinance is
34	necessary and proper to provide for the safety, preserve the health, promote the prosperity, and
35	improve the order, comfort and convenience of the Town of Breckenridge and the inhabitants
36	thereof.
37	
38	<u>Section 7</u> . The Town Council hereby finds, determines and declares that it has the power
39	to adopt this ordinance pursuant to: (i) the Local Government Land Use Control Enabling Act,
40	Article 20 of Title 29, C.R.S.; (ii) Part 3 of Article 23 of Title 31, C.R.S. (concerning municipal
41	zoning powers); (iii) Section 31-15-103, C.R.S. (concerning municipal police powers); (iv)
42	Section 31-15-401, C.R.S. (concerning municipal police powers); (v) the authority granted to
43 44	home rule municipalities by Article XX of the Colorado Constitution; and (vi) the powers
44 45	contained in the <u>Breckenridge Town Charter</u> .
45	Section 8. Section 1 and Section 2 of this ordinance is repealed effective April 1, 2010.
TU	<u>because of</u> . Because I and because 2 of this ordinance is repealed effective April 1, 2010.
