

Snow removal from town sidewalks is a joint effort between The Town of Breckenridge and homeowners/ business owners.

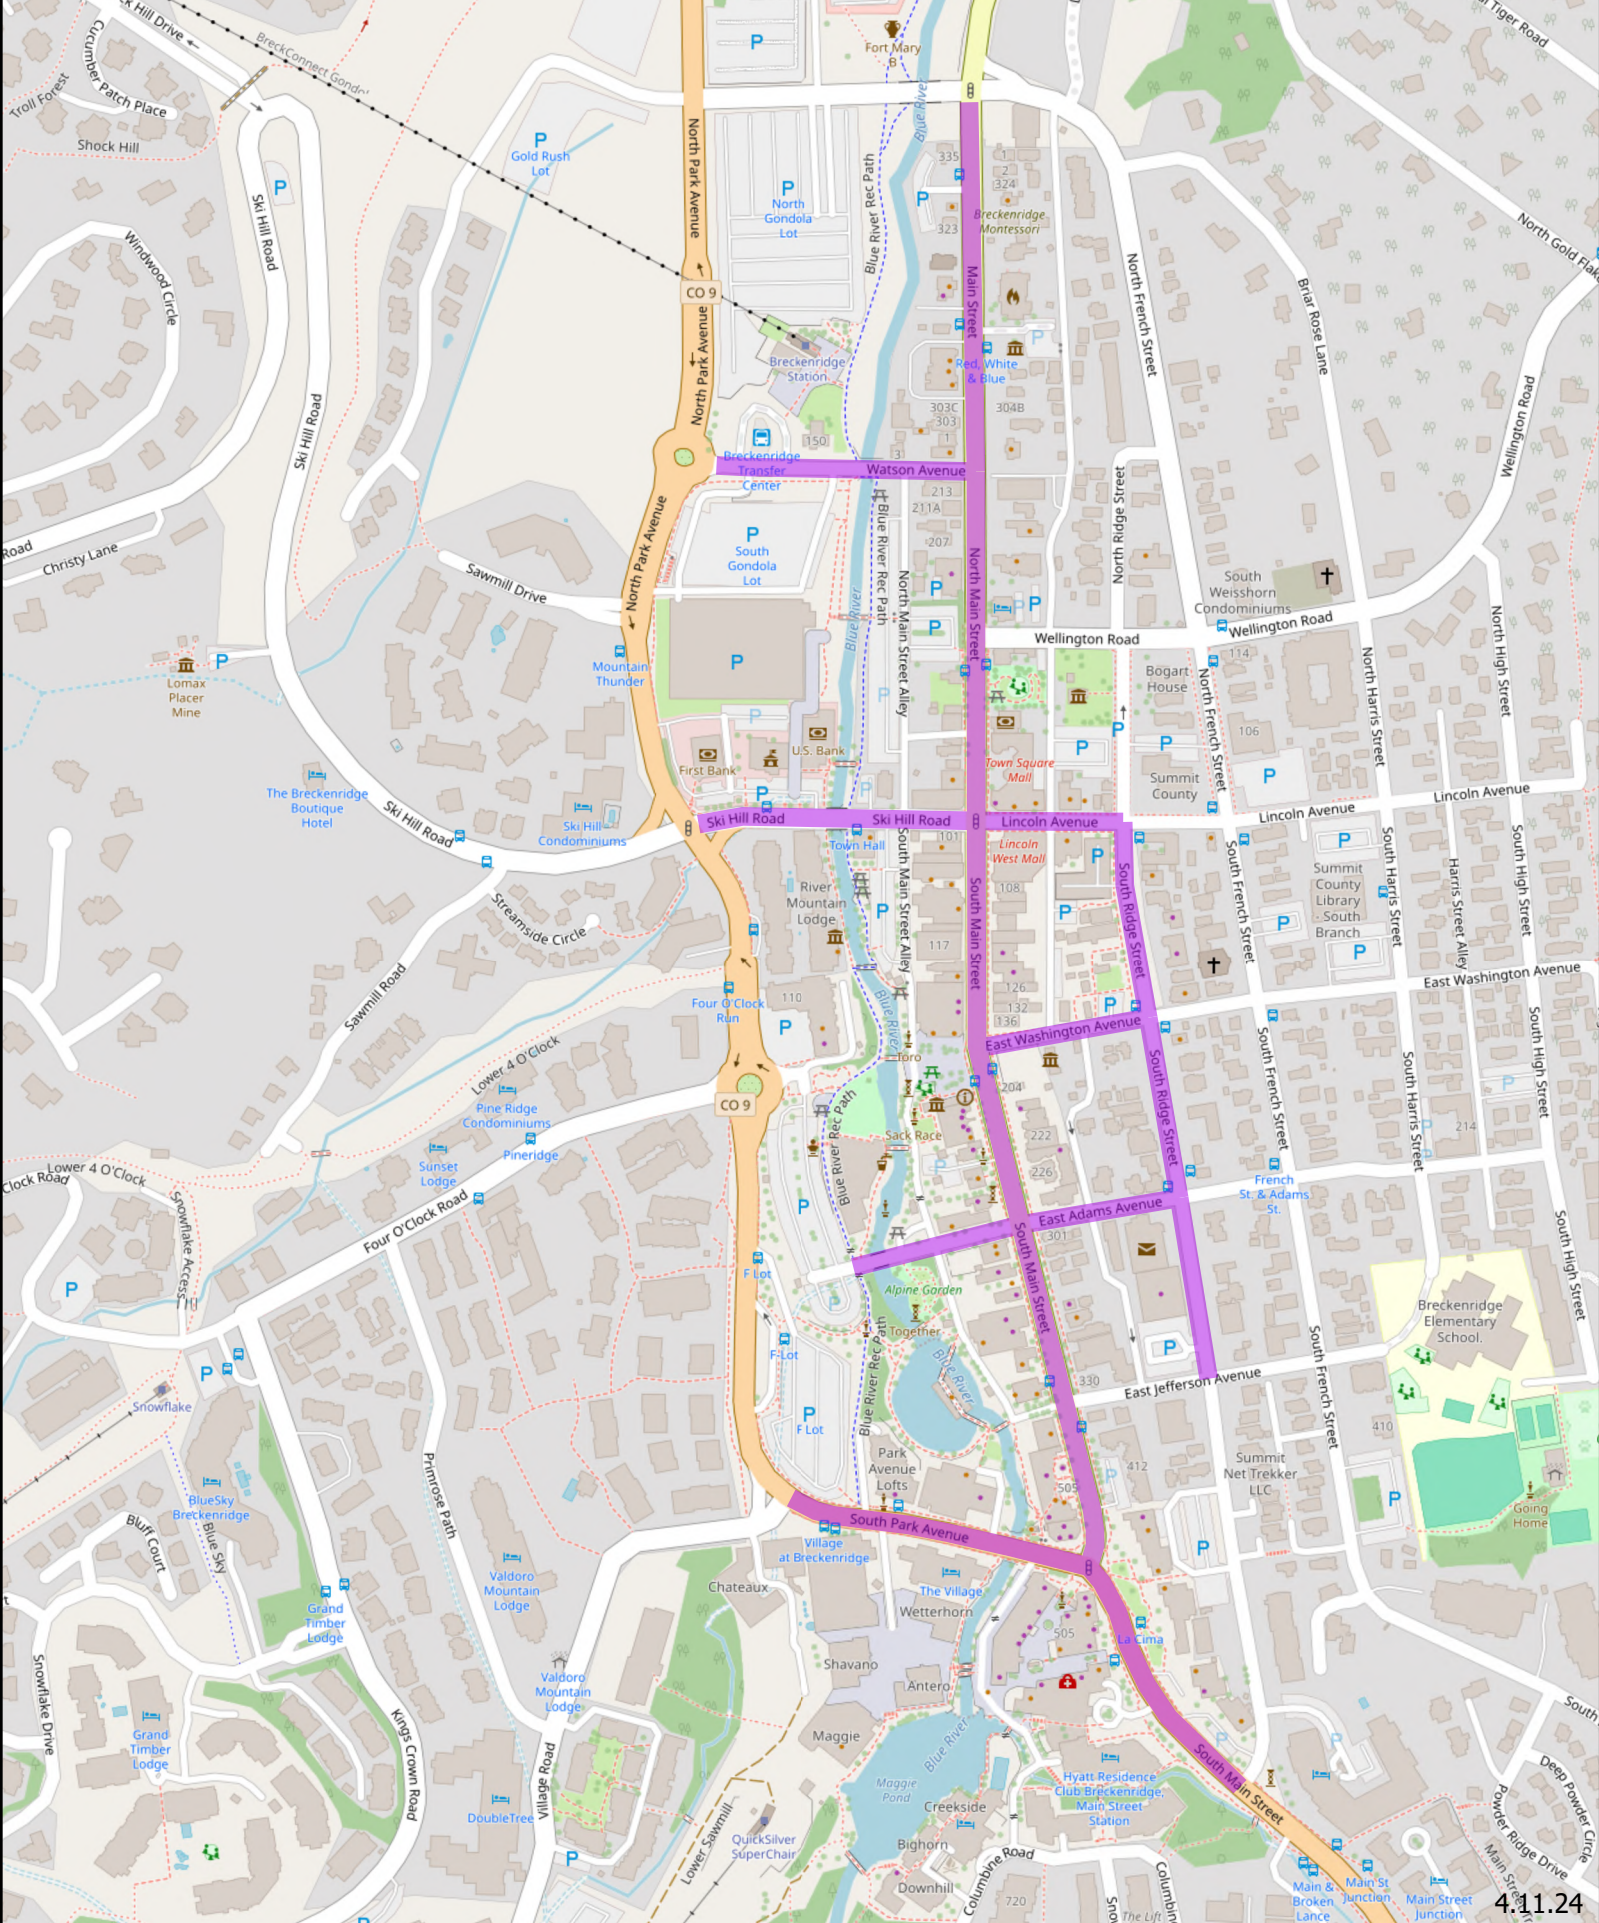

Town Code places the responsibility on the property owner for snow and ice removal on the sidewalk adjacent to their property.

It is increasingly difficult for Public Works to remove snow and ice effectively and safely during the day due to heavy pedestrian traffic and conflicts with equipment.

The Town will remove snow and ice from sidewalks overnight, from about 8PM to 8AM.

You will be responsible for daytime removal from 8AM to 8PM. Please reference the map for specific zones where you are responsible for snow removal highlighted in pink.
